Hand and foot-operated folder

 # 00317120

Manual folding machines - HS-7S

The HS 7S models is equipped with a segmented upper beam, and this model is constructed with an effective foot operated clamping feature.

This ensures that folding tasks can be carried out quickly and safely, with both hands being free to adjust the positioning of the work piece.

The folding beams are all fitted with a counter-balance for effortless operation.

Optional equipment:

Back gauge, hydraulic ERGO unit.
