Semi hydraulic operated folder

 # 00322200

Semi hydraulic folding machines - HS-2A ERGO

The new range of HS 2AS ERGO and HS 3S ERGO, folders are actually manual machines, which have been up-rated to offer a very efficient motorised option via a special developed and patented pending, folding beam support cylinder system.

These models have the unique feature, that they can be operated either manually when folding the thin sheet, or with the new powered system when folding heavier gauge material.

The new ERGO range of machines have been ergonomically designed, with the operator in mind.

All models are very competitively priced, and provide an excellent cost-effective alternative to either, manual or motorised folding machines.

Accessories:

Back gauge and radius blade R = 1,5 mm and R = 2,5 mm.

HM MACHINERY

Product Specification

Capacity (mm)	1020 x 2,5
Sheet thickness steel (mm)	2,5
Max. Opening (mm)	45
Bending angle	135°
Voltage	1x230V-50 Hz
Length (mm)	1690
Width (mm)	670
Height (mm)	1270
Net weight (kg)	527
