Semi hydraulic folding machines - HS-3S ERGO

The range of HS 2AS ERGO and HS 3S ERGO, folders are actually manual machines, which have been up-rated with a special developed and patented pending, hydraulic folding support system.

These models have the unique feature, that they can be operated either manually when folding thin sheet, or with the new powered system when folding heavier gauge material.

The new ERGO range of machines have been ergonomically designed, with the operator in mind.

All models are very competitively priced, and provide an excellent cost effective alternative to either, manual or motorised folding machines.

Accessories:

Back gauge and radius blade R = 1,5 mm and R = 2,5 mm.
