Pipe notcher & Belt grinding - TAS 150RB

HM TAS 150RB/RBX are first and foremost, pipe notchers which grind pipes of all types: round, square, solid and with diameters of between 17 mm and 100 mm.

However, the RB and RBX models are more than just efficient pipe grinders.

They can be converted into a conventional belt grinder in just minutes when all pipe grinding tasks are finished.

Then the grinder can then be used for normal standard grinding tasks.

HM TAS 150RB is without dust extraction and HM TAS 150CGX is complete with built-in double dust extraction.
